

JUSTWHEELIEBINS

Powered Binlifter 150

- Safe lifting capacity of 150kg
- Lifts 80L, 120L, 140L and 240L bins (manual adjustment)
- Fits through internal doorways
- 240V Electric operation or
- Mobile rechargeable 12V operation

The Powered Binlifter 150 is designed for manoeuvrability. The small foot print and light weight, combined with the 240V electro-hydraulic operation make it perfect for heavier bins on building/industrial sites. The lift mechanism is a full swing operation (as opposed to the lift and tilt operation of the Ecolift 50) - which enables the compact size and light weight, but which is recommended for trained users away from the general public for safety reasons.
